Nightscape of Sapporo
Japan’s new top 3 cities for night views

In order to promote “nightscape tourism” as a new brand of Japan’s tourism at home and abroad, the Japan Nightscapes Tourism Convention Bureau made a survey among the 4,500 Qualified Nightscape Reviewers to select top 3 spots and thereby to determine the nation’s top 3 cities for the greatest night views. Nagasaki, Kobe and needless to say Sapporo won the glory.
Giga-pixel night views of glittering Sapporo in the great Ishikari Plain panoramas

Come and enjoy Sapporo’s transcendental night views from the observation platforms presenting a colorful spectacle across the city like scattered jewels and the illuminated central festivals decorated with mesmerizing reflections of multi-colored neon lights and sparkling white snow in the background.
