SAPPORO BURARI TECO" is a handbook created by Sapporo Concierge, a group of Sapporo City tourism-related business members who gathered to hold workshops and discussions in groups by area, and to actually walk around the city, as though they were travelers. They spent six months exploring the charm of their own town and created this handbook.

The "Sapporo Burari Techo" features attractive places and stores that are only noticeable after living in Sapporo. The model courses were created with the hope that visitors will feel excited as they walk the streets of Sapporo, and fall in love with it even more. Please enjoy the new and unordinary charm of Sapporo.

Islet, "Nakajima," of the Toyohira River

The Central Park of Sapporo, where you can enjoy the four seasons

Nakajima Park was originally an islet surrounded by the Toyohira River and its tributary, the Kamokamo River.

Shobu Pond in the park was created as a lumber yard to accumulate lumber cut down in the upper reaches of the Ishikari River during the settlement of the area. The Shobu pond is a pathway for citizens enjoying boating in summer and for animals in winter as the surface of the water freezes over.

The area along the Kamokamo River, the origin of Nakajima Park, is characterized by its beautiful seasonal expressions, such as cherry blossoms in spring and autumn leaves in fall.

The lush green park is also home to the Hoheikan, a historical building, Kitara, a world-class concert hall dedicated to music, the Hokkaido Museum of Literature, an astronomical observatory, a gymnasium, tennis courts, and the Kogumaza children's puppet theater, making it a central park where children and adults alike can spend time in a variety of ways.

Recommendations from

SAPPORO CONCIERGE

The central park shows different expressions 365 days a year

Nakajima Park presents a different look every day. In spring, cherry blossoms bloom along the Kamokamo River; in late May, lilacs bloom and you can take a walk among the wisteria trellises; in June, fresh greenery blooms; in summer, you can enjoy boating Shobu Pond. In autumn, a walk along the ginkgo trees is recommended. And in winter, the best time to visit is in the morning. White snowfields and the clear air is a scene we would like you to experience.
